2. Click the icon  Enter the main interface of the app:

mt022_ce0d98  Connected recorder

3. Ordinary video and emergency video viewing

In the stop recording state, click "Device Video" to display a normal video; Press and hold to slide up is a normal video, slide to the left is an emergency video.

 When the icon is switched to another video, view another video file.

File download: Long press the file you want to download in the file browsing interface, and then click download after the download interface pops up. The downloaded file is saved in the downloads folder under the roadcam path.

Product specification

Sensor	CMOS
Video shooting	1920*1080 30FPS
Video format	H.264 encoding, MOV format
Recording mode	Loop recording
Recording function	Simultaneous recording and video
The power supply	Transfer DC12V to 5V2A for voltage drop line input
Storage card Type	TF card
Memory card capacity	Supports a maximum of 128 GB C10 high-speed card
Gsensor	Supports high/medium/low sensitivity
Parking monitoring	Support
Wifi	WIFI hotspot wireless transmission, mobile APP preview
Waterproof level	Host IP65 Lens IP67
Working temperature	-20~70℃

Note: Specifications and configurations may be changed due to upgrade or update.

VI Common troubleshooting methods

- ⊙ **Recorder does not turn on:** Check whether power cables are properly connected and whether the voltage meets the requirement of 12-24V to 5V.
- ⊙ **Recorder does not record/memory card cannot recognize/there is no video in the card:** Please check whether the memory card meets the reading speed above C10, and try to choose a memory card of a well-known brand.
- ⊙ **The lens does not show:** Check whether the lens cable is loose, and do not insert or remove the lens unless the power is off.
- ⊙ **The video goes blurry:** Check whether the lens has dust, please wipe the lens.
- ⊙ **Video streaking interference:** To view the type of spark plug for motorcycle, use R grade resistance spark plugs. Check whether the lens circuit is bent. Route the circuit smoothly. Do not get too close to the engine.
